

# UHU® PATAFIX PROPOWER

## 21 ULTRA STRONG, REMOVABLE AND REUSABLE GLUE PADS

### PROPERTIES

- Ultra strong, removable and reusable
- For fastening, affixing and repairing objects
- Suitable for indoors and outdoors
- Dermatologically tested
- Made in Germany

### PREPARATION

**Personal safety:** Keep away from children: Danger of confusion with chewing gum.

**Surface requirements:** The areas to be glued must be dry and free of any dust or grease.

### APPLICATION

#### Directions for use:

1) Pull off a glue pad and 2) knead until soft. 3) Distribute evenly (every 5-10 cm, depending on size of object to be fixed). 4) Fix by pressing firmly. 5) To remove, carefully detach the object by applying light rotational motion or by pulling it off from surface. To reuse: repeat from 2).

**Stains/residue:** Possible residue can be removed by dabbing with another glue pad. UHU patafix may leave a greasy mark on absorbent surfaces; this can usually be removed with benzene.

### PRODUCT DESCRIPTION

UHU patafix PROPower – the practical and ultra strong helper for do-it-yourself and repair tasks! The ultra strong, repositionable and reusable glue pads fasten, affix and repair, clean and permanent, objects up to 3kg (in optimum application conditions) on different surfaces. UV-resistant and moisture-resistant, thus suitable for indoors and outdoors. 1000's of uses all around the home and for do-it-yourself tasks. Dermatologically tested.\*

\*UHU patafix ProPower achieved the result "VERY GOOD" in dermatological tests carried out by the independent institute dermatest®.

\* The maximum adhesive force of 3 kg is attained under optimum application conditions: Affixing a flat object (depth < 1cm) on a smooth surface (metal) at ambient temperature under application of a minimum of 6 pads by observing the below mentioned usage hints.

### FIELD OF APPLICATION

Thousands of applications all around the home and for DIY tasks such as "Third Hand". UV-resistant and moisture-resistant, thus suitable for indoors and outdoors.\* Fixes objects of all kinds up to 3kg on various surfaces. The maximum load of 3kg is achieved under optimal conditions, i.e. flat objects (depth < 1cm) on smooth, solid surfaces, using a minimum of 6 pads, at room temperature (see user instructions).

\*Humidity resistant if on smooth surfaces such as metal, glass and plastic, but should not be permanently exposed to weather influence. Not suitable for delicate materials or surfaces. Do not use on recently painted areas and wallpaper. Try on small sample first.

Note: This information is the result of carefully executed tests. This Technical Data Sheet has been prepared to the best of our knowledge to provide you with advice when gluing. We cannot be held responsible for the results or any damage suffered, as the variety of factors involved (type and combination of materials and working method) are beyond our control. Users have to carry out their own checks and trials. Liability can only be accepted for the consistently high quality of our product.
