

UHU[®] MULTI PURPOSE ADHESIVE SOLVENT FREE

SOLVENT-FREE MULTI-PURPOSE ADHESIVE

PRODUCT DESCRIPTION

Solvent-free multi-purpose adhesive for a wide range of applications at home, at school and kindergarten, in the office, for crafts and modelling, etc. The adhesive is odourless, dermatologically tested and can be washed out easily with soap.

FIELD OF APPLICATION

Universal - glues cardboard, paper, felt, leather, cork, fabrics, wood, among themselves and to metal, porcelain, glass, Styrofoam[®] and many plastic materials. Not suitable for photos, Polyethylene (PE) and Polypropylene (PP).

PROPERTIES

- solvent-free adhesive
- transparent
- dermatologically tested formula
- washes out with soap

PREPARATION

Working conditions: Do not use at temperatures below +5°C.

Surface requirements: Materials to be glued must be clean, dry and free of dust and grease.

Preliminary surface treatment: Depending on the type of material, apply to one or to both surfaces to be glued, and press the parts together immediately or after no more than 1 to 2 minutes. When glueing plastics or metal, slightly roughening the surfaces will help to stick better.

APPLICATION

Directions for use:

Thoroughly clean the surfaces to be glued (dry and free of dust and grease). Apply the adhesive thinly to one side and press in place.

Stains/residue: Adhesive which has not yet fully dried, can be washed out very easily with cold or warm water. It is advised to machine wash dried adhesive at 40°C using regular detergent.

Advice: When glueing paper use only a small quantity of glue; this will reduce paper waving - typical for all water-based glues.

TECHNICAL PROPERTIES

Temperature resistance: UHU Multi Purpose Adhesive solvent free is not affected by frost, i.e. after freezing the product will melt without its glueing properties being altered.

TECHNICAL SPECIFICATIONS

Appearance: colourless up to pale yellowy colour

Chemical base: polyacrylate mixture

Consistency: Low viscosity

Viscosity: approx. 30-55 mPa.s.

Solvent: Water

Solid matter: approx. approx. 27 %

Density: approx. approx. 1,05 g/cm³

STORAGE CONDITIONS

Store in a dry, cool and frost-free place.

PACK SIZES

Tubes: 7ml, 20ml, 35ml, 60 ml
