

UHU[®]**CREATIV' FABRICS, FELT & RIBBONS**
FLEXIBLE, RESISTANT TO WASHING AND DRY-CLEANING**PRODUCT DESCRIPTION**

UHU Creativ' Fabrics, Felt & Ribbons is fast-setting, solvent-free, resistant to washing and dry-cleaning (if ironed), odourless and transparent when dry. The gluing film is very flexible and resistant to ageing and light – the ideal adhesive for making dolls, fabric animals, puppets, silk flowers, clothing, bags, greeting cards, book bindings, table and room decorations, collages, ribbon ornaments and much more.

FIELD OF APPLICATION

Glues fabric, felt and ribbons, also in conjunction with many other materials. Also for wool, wadding, pompoms, pipe cleaners, cord, etc. Not suitable for silk and fabrics with an over 60% share of synthetics.

PROPERTIES

- Resistant to washing and dry-cleaning
- Flexible
- Resistant to ageing and light
- Odourless and transparent when dry
- Fast-setting
- Solvent-free
- Made in Germany

PREPARATION

Surface requirements: The areas to be glued must be dry and free of any dust or grease.

APPLICATION**Directions for use:**

A brush or spatula may be used to apply the glue. In most cases it is sufficient to apply the glue to one side only. The parts may be assembled either immediately or after no more than approx. 5 minutes drying time. After approx. 30 minutes, the assembly can be ironed (iron setting according to the type of fabric); this shortens the bonding time and improves resistance to washing and cleaning.
Stains/residue: Fresh specks of glue may be removed with water. Dried-on glue is extremely hard to remove because of the good resistance of the product to solvents and cleaning products.

TECHNICAL SPECIFICATIONS

Appearance: slightly opaque substance

Chemical base: acrylic-acid ester dispersion

Consistency: Cream-like

Viscosity: approx. 50,000-70,000 mPa.s

Solid matter: approx. 46 %

Density: approx. 1,04 g/cm³

STORAGE CONDITIONS

Product should be stored in a dry, cool and frost free place.

PACK SIZES

tube: 38ml on blistercard
