

UHU[®]

ALL PURPOSE ADHESIVE TWIST & GLUE

CRYSTAL-CLEAR ALL PURPOSE ADHESIVE IN A UNIQUE BOTTLE FOR GLUEING DOTS, LINES AND SURFACES

PRODUCT DESCRIPTION

UHU twist & glue, the proven liquid All Purpose Adhesive in a soft and handy plastic bottle with the unique 3-position twist-applicator for glueing dots, lines and surfaces. Ideal for a wide range of applications at home, at school, in the office, for crafts and modelling, etc. The crystal-clear formula dries fast and washes out at 60 °C. Refillable. Allows easy and precise glueing made to measure.

FIELD OF APPLICATION

Universal - glues cardboard, paper, felt, leather, cork, fabrics, wood, metal, porcelain, glass, Styrofoam® and many plastic materials.

Not suitable for photos, Polyethylene (PE) and Polypropylene (PP).

PROPERTIES

- unique twist-applicator for glueing dots, lines and surfaces
- soft and handy plastic bottle
- crystal-clear
- fast drying
- washes out at 60 °C
- refillable

PREPARATION

Working Conditions: Do not use at temperatures below +5 °C.

Surface Requirements: Materials to be glued must be clean, dry and free of dust and grease.

Preliminary Surface Treatment: When glueing plastics or metal, better results can be obtained if the parts to be stuck together are slightly roughened first.

APPLICATION

Directions for use:

Thoroughly clean the surfaces to be glued (dry and free of dust and grease). Use the black precision nozzle to apply dots of glue or to draw a thin line, twist in direction of the arrows, and the nozzle becomes an oval applicator for narrow and broad collages. Apply the adhesive thinly to one side of the assembly, press the parts together - that's it! Washes out at 60 °C using regular detergent.

Stains/residue: The glue dissolves in alkaline detergents (e.g. heavy duty detergent). Stains in clothing can be removed by treating them generously with heavy duty detergent first and then washing the clothing at 60 °C (prewash program). Small stains can be removed with denatured alcohol.

Points of attention: Contains volatile, highly inflammable solvents. Appropriate precautions should therefore be taken during storage or when working with the adhesive.

TECHNICAL SPECIFICATIONS

Chemical base:	Polyvinyl acetate copolymer
Colour:	Crystal clear
Consistency:	Liquid
Density approx.:	0,92 g/cm ³
Drying/Curing time approx.*:	2-5 minutes
Final bond strength:	5 N/mm ²
Final bond strength after:	24 hours
Flash point:	K1 (<21°C)
Minimum application temperature:	10 °C
Maximum temperature resistance:	70 °C
Moisture resistance:	Limited
Rinseable with water:	Yes
Solvent:	Mixture of esters and alcohols
Viscosity:	Low viscosity
Viscosity approx.:	1500 mPa·s
Washable:	Yes
Water resistance:	Nil

* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

PHYSIOLOGICAL PROPERTIES

The dried adhesive is inert, completely neutral and physiologically indifferent.

PACK SIZES

35g, 90g
