

# TWIST & GLUE RENATURE

SOLVENT-FREE MULTI-PURPOSE ADHESIVE IN A PLANT-BASED PLASTIC BOTTLE

## PRODUCT DESCRIPTION

Solvent-free multi-purpose adhesive in a soft and handy plastic bottle from 88 % plant-based raw materials. Saves fossil resources, reduces CO<sub>2</sub> emissions and is recyclable. The unique 3-position twist-applicator allows precise glueing of dots, lines and surfaces. The glue formula is made from 98 % nature-based materials and dermatologically tested. Ideal for a wide range of applications at home, at school and kindergarten, in the office, for crafts and modelling, etc. Washes out with soap and is refillable.

## FIELD OF APPLICATION

Universal - glues cardboard, paper, felt, leather, cork, fabrics, wood, among themselves and to metal, porcelain, glass, Styrofoam® and many plastic materials.

Not suitable for photos, Polyethylene (PE) and Polypropylene (PP).

## PROPERTIES

- unique twist-applicator for glueing dots, lines and surfaces
- formula 98 % nature-based
- solvent-free
- soft and handy plastic bottle from 88 % plant-based raw materials
- dermatologically tested
- washes out with soap
- refillable

## PREPARATION

**Working Conditions:** Do not use at temperatures below +5 °C.

**Surface Requirements:** Materials to be glued must be clean, dry and free of dust and grease.

**Preliminary Surface Treatment:** When glueing plastics or metal, better results can be obtained if the parts to be stuck together are slightly roughened first.

## APPLICATION

### Directions for use:

Use the green precision nozzle to apply dots of glue or to draw a thin line; twist in direction of the arrows, and the nozzle becomes an oval applicator for narrow and broad collages. Apply the adhesive thinly to one side; press in place. Washes out at 40 °C.

**Stains/residue:** Adhesive which has not yet fully dried, can be washed out very easily with cold or warm water. It is advised to machine wash dried adhesive at 40 °C using regular detergent.

**Points of attention:** The glue shall not be mixed with other adhesives. Before being refilled, the working bottle must be thoroughly rinsed with water. The adhesive is not affected by frost, i.e. after freezing the product will melt without its glueing properties being altered.

## TECHNICAL SPECIFICATIONS

Chemical base:	Dextrine
Colour:	Clear
Consistency:	Liquid
Density approx.:	1,18 g/cm <sup>3</sup>
Drying/Curing time approx.*:	< 1 minute
Final bond strength after:	24 hours
Minimum application temperature:	10 °C
pH-value approx.:	7,5
Rinseable with water:	Yes
Solvent free:	Yes
Transparent:	Yes
Viscosity:	Medium viscosity
Washable:	Yes
Water soluble:	Yes

\* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

## PHYSIOLOGICAL PROPERTIES

The dried adhesive is physiologically safe.

## PACK SIZES

35ml, 90ml
