PROPERTIES

- · Extra brilliant glitter effects
- · For various materials
- Extra soft tube
- · Precision nozzle
- · Non-drip and no stringing
- · Solvent-free
- · Dermatologically tested

PREPARATION

Surface Requirements: The areas to be glued must be dry and free of any dust or grease.

APPLICATION

Directions for use:

Twist off the coloured cap. Press gently on the tube to apply the glue. Replace the cap after use. Depending on the quantity applied, UHU Glitter Glue is touch dry after approx. 60 minutes and completely dry after approx. 4 hours. Soaking in water dissolves UHU Glitter Glue, this means that it will not withstand washing operations.

Stains/residue: Once it has dried, the glue can be washed off at 30 °C by machine or by hand. Do not wash with other items as these may pick up particles of glitter.

Points of attention: In case of contact with skin, rinse with water.
